The V. P. I. Girl.

The V. P. I. girl may be seen in her most attractive pose at the Craig Company Art Store on Broad Street.

She is in jaunty attire, showing the V. P. I. colors in yellow and red. She waves aloft the V. P. I. pennon and the swith of her skirts discloses the neatest little feet in the highest heeled Louis Quinzes ever seen.

This college maid turns happy eyes and smilling red lius to all that seek her acquaintaince. She is as a work of art the combined effort of Mr. Craig's faultiess perception in drawing and of the skill in lithographing displayed by A. Hoen and Company, who might have done nothing but turn out college maids hay by day, so well have they wrought in this instance.

STREET-CAR MEN WAITING

> Midnight Meeting Likely to Be Called Any Time.

THE FIGURES OF MR. ORR

Tells of the Compensation Received by the Men in Other Cities-President

Griggs Talks on the Situation.

"There is nothing new in the situation at present," said National Organizor Rezin Orr, of the street railway employes, last night, "but you may say that the committee and myself have been working hard and that a called meeting of Division 152 may be had at any time. Of course, when this meeting is called it will be to let the men know of our action in their interest. Our plans have been carefully guarded and no one outside of the committee, not even the men themselves, know of them.

"There has been much said on the other side about the men on the Richmond lines receiving more pay for their labor than in any city in the South," continued Mr. Orr. "I have prepared a list of cities which compare favorably with Richmond in population, and which shows that the men here are far behind in the average, even where a graduated scale for length of service is considered. For instance, the men here receive 18½ cents per hour; branch line motormen, 16½ cents per hour. The wages asked for at the present time are 22 cents per hour for motormen and 21 cents per hour for conductors. On the Petersburg division they only ask 18 cents for motormen and 17 cents for conductors. cents for conductors.

COMPARISON OF RATES.

"By comparing rates in other cities, the public can easily judge who receives the higher pay. The increase asked does—not carry the graduated scale, but is a flat

pay per hour:
'In order to compare these wages with those paid in other cities, the following accurate statement is made: Colorado Springs, Col-20 cents for first year in service, 221-2 cents for second and third service, 221-2 cents for second and third year, and 25 cents thereafter; Worcester, Mass.—20 cents for first year, 21 cents second, 22 cents for third and fourth; Saginaw, Micb.—19 cents per hour; East Liverpool, O.—20 cents for first year, and 23 cents threafter; Houston, Tex.—15 cents for first year, 19 cents for second and 20 cents thereafter; Houston, Tex.—16 cents for first and second years, 23 cents for first and second years, 23 cents for first and second years, 23 cents for second six months, and 20 cents thereafter; Mt. Clemens, Mich.—Interurban road, 22 cents per hour; Akron, O.—18 cents for first year, 19 cents for second, 20 cents thereafter; San Antonio, Tex.—20 cents per hour; Wheeling, W. Va.—20 cents per hour; Ann Arbor, Mich.—Interurban road, 18 cents for the second tiffue months, 221-2 cents thereafter; Toronto, Ontario—18 cents for first year, 20 cents thereafter; Youngstown, O.—19 cents for first year, 20 cents thereafter; Youngstown, O.—19 cents for Bellville, III.—21 cents per hour; Lancing-burn, N. Y.—20 cents per hour; New New Youngstown, New Years per hour; New Yea

THE NINE-HOUR DAY.

THE NINE-HOUR DAY.

"The nine-hour day," said Mr. Orr, "is equally as advantageous to the employer as it is a luxury to the employe. A man running a car more than that number of hours naturally becomes wearied, and accidents are more liable to occur than if he is only worked a reasonable length of time. Then, too, I understand that when an accident occurs the motoman and conductor are held off, causing

that when an accident occurs the motorman and conductor are held off, causing a loss of time and money to them, until the matter is properly adjusted. Therefore, I repeat emphatically that the demands of the men here are anything but unreasonable—they are just, in the face of existing circumstances.

"In the cities that I have mentioned agreements exist between the men and the companies, and in my opinion if the company in Richmond will take up the question of agreement with the committee or representatives of our organization, the present controversy can be peaceably adjusted. The reason we advocate having these agreements and a provision in them for arbitration is that it protects both parties, and our organization can at all times prevent the strike, for where we have these agreements we do not have strikes at all, and, therefore, traffic is not blockaded and the public is in no wise inconvenienced."

President Wilbur J Griggs, of Division

No. 152, who is a member of the committee headed by Mr. Orr, said when seen

No. 103, who is a miner of the common tee headed by Mr. Orr, said when seen last night:

"Nothing new; everything is moving along nicely. My men have the utmost confidence in the committee and are giving themselves no undue worry over the situation. Just as soon as our plans develop I will call a midnight meeting and then the men, as well as the public, will know just what our plans have been and the progress we have made in our efforts to effect a peaceful settlement."

The committee confers every morning and evening with Mr. Orr in the Lexington Hotel. Every member wore a smile of content last night when asked of the situation.

In event the employes of the street car company strike it is reported that a sufficient number of strike-breakers is already in the city to operate the curs. This report is denied by the company. In most large cities detective agencies are known to keep a list of men who are accessible in time of a strike, and these agencies have not, it is thought, failed to overlook the situation in Richmond, where nearly 700 men are required to operate the lines. The men are offered in the companies in lots of from fifty to 500.

Minister Conger's Protest Received.

(By Associated Press.)

WASHINGTON, D. C., June 8.—Minister Conger's protest against Count Cassin's published interview concerning the Russian occupation of Manchuria has reached the State Department. The department officials suspect that Mr. Conger has perhaps seen a version of the interview so closely abbreviated as to convey an eroneous impression as to what the ambassador really said, and they are disposed to move very slowly in forwarding the protest.

The Newspaper Artists Loan and Sale

Exhibit, which opened yested the Crenshaw mansion, shows some very fine work done by artists, who have made a name for themselves everywhere in the United States.

The rooms are hung with pictures arranged with a good eye as to position and effect. Palms and a plano in the rear hall add to the general attractiveness of the interior.

In looking here and there at the beautiful work on the walls, the eye is caught and hold by the tender gray greens in a sketch of Renterdale's, which is catulogued as "Syrlng."
